pSmart characteristics

- Simple display and control centre with all basic weighing system functions
- Legal for trade
- High contrast display
- Simple use with function and navigation keys
- Individually selectable key assignment and functions

PFREUNDT pSeries

The pControl and pSmart electronic weighing system for wheel loaders

The PFREUNDT pSeries for wheel loaders comprises the pControl and pSmart electronic weighing systems and the evaluation unit. Both pControl and the entry model pSmart have an illuminated Keypad. Both electronic systems are resistant against dust, moisture and wear, thereby defying the rough wheel loader working conditions.
